EMERGENCY CALLS On Party Lines

INDIANA STATE LAW

Concerning Use of Party Lines in Cases of Emergency

A statute enacted by the 1955 Indiana Legislature makes it unlawful to misuse party line telephone service in cases of emergency. An emergency is defined in the law as "a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential." The law, in part, reads as follows:

Section 2. It shall be unlawful for any person using a telephone on a party-line to refuse to yield such party-line, when requested to do so, to any person who wishes to place an emergency call from a telephone on such party-line. Any person who violates the provisions of this section shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding twenty-five dollars to which may be added imprisonment in the county jail for any period not exceeding ten days.

Section 3. It shall be unlawful for any person to obtain the use of a telephone on a party-line by falsely alleging the existence of an emergency. Any person who violates the provisions of this section shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding twenty-five dollars to which may be added imprisonment in the county jail for any period not exceeding ten days.

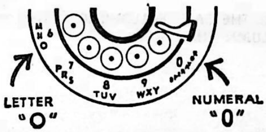
Ringing Signal



A soft "burr-r-ring" repeated at regular intervals means that the telephone you dialed is ringing. Give your party time to answer—about 10 rings—before you hang up.

The Busy Signal

A steady "buzz-buzz-buzz" sound means the line you called is in use. Hang up and call again later.

Letter "O"—Numeral "0"

Please be careful not to confuse the letter "O" with the numeral "0" when dialing.

Calling Another Party on Your Line

To obtain information on how to call another party on your line, dial "114" Repair Service.

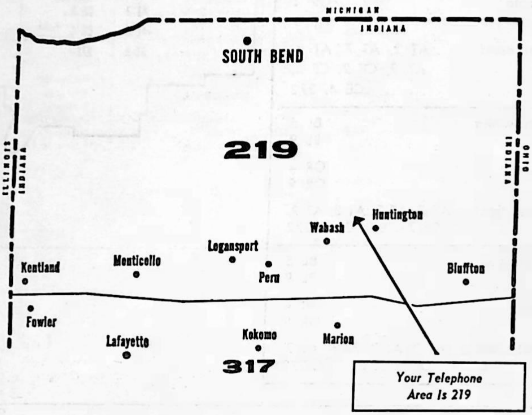
Your Telephone Operator

Your Operator is always ready to help you with calls you cannot dial, in any difficulty you may encounter and IN EMERGENCIES. To reach her just dial "OPERATOR."

HOW TO USE DIRECT DISTANCE DIALING

The United States and Canada are divided into more than 100 telephone areas, each identified by a three-digit area code. (See map on page III.) This system makes it possible for you to have Direct Distance Dialing. With DDD, you can dial your own station-to-station calls, when the number you are calling has either two letters and five numerals or seven numerals. For other types of calls and calls from coin telephones, dial "Operator."

If you know the area code and number...



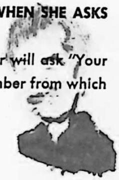
1 ON CALLS INSIDE THE 219 AREA

DIAL 112 and then the TELEPHONE NUMBER. **Do not dial area code 219.**

If you don't know the area code or number...

1 HOW TO GET THE AREA CODE

A partial list of places you can dial direct and their area codes are shown on pages III-VII. If the place you want is not listed, dial "Operator" and ask her if it can be dialed.



2 ON CALLS OUTSIDE THE 219 AREA

DIAL 112 and then the appropriate AREA CODE and the TELE-PHONE NUMBER. (An Area Code is not required on calls to Buchanan, Galien, and Niles, Michigan.)

3 GIVE THE OPERATOR YOUR NUMBER WHEN SHE ASKS FOR IT

efore the called telephone rings, an operator will ask "Your umber, please?" Be sure to give her the number from which ou are calling.

4 IF YOU REACH A WRONG NUMBER

lial "Operator" immediately, give her your number and tell r what city and number you reached so you will not be led for the call. Even if you are unable to get the name of city you reached, report it to the operator promptly.

2 HOW TO GET THE NUMBER

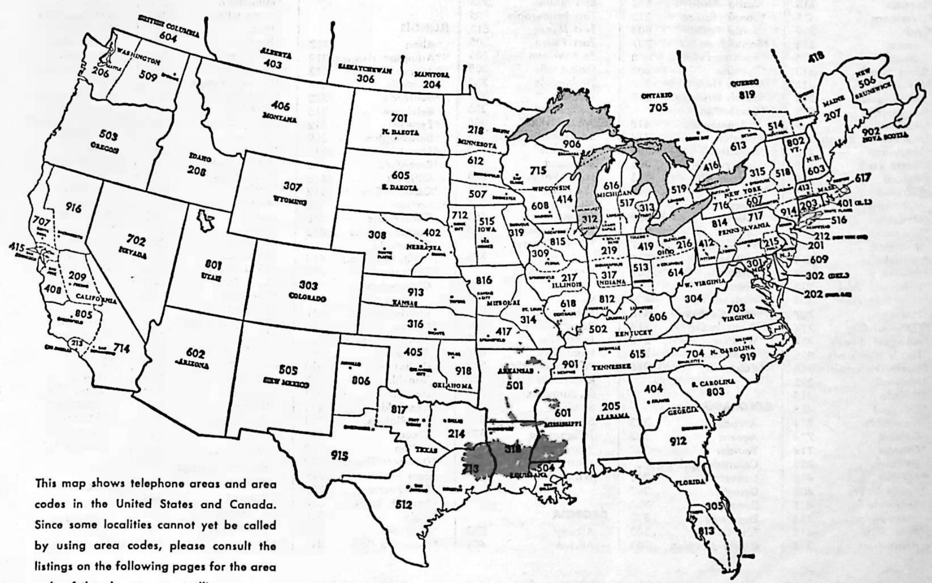
If you don't know the out-of-town number, you can dial without charge the Information Operator serving many distant places—those starred on pages III-VII. Dial 112, then the area code (if it is different from the one for the telephone you are using), then 555-1212. When the Information Operator answers, first give her the city or town, then the name and address you are calling.

If the place you are calling is not starred, dial "Operator" and ask for Information in the city you are calling.

3 DIAL THE CALL, FOLLOWING INSTRUCTIONS IN LEFT COLUMN THIS PAGE.

IF YOU NEED ASSISTANCE, DIAL "OPERATOR." SHE WILL BE GLAD TO HELP YOU

AREA CODES FOR FASTER LONG DISTANCE CALLING



Even on calls you must place with the Long Distance Operator, the area code will help you get them through faster. Just give her the area code (if it is different from the one for the phone you are using) and the telephone number you want. For example, say "Area code 311, KL 5-2368." If the Operator needs to know the place name, she will ask you for it.

Blue Book of Telephone Numbers

For faster service this attractive Blue Book of Telephone Numbers provides a handy place for keeping your personal list of local and out-of-town numbers. The latest edition contains a list of area codes for over 700 cities. To get one free, just call, write or visit your Business Office.

HELPFUL INFORMATION

YOUR TELEPHONE NUMBER IS IMPORTANT

It's smart to make it easy for your customers to reach you. So why not include your telephone number on your stationery, statements and all advertising pieces? Show your area code, too—it helps distant parties call you faster.

A pamphlet explaining where and how to display area codes is yours for the asking—just call your Business Office.

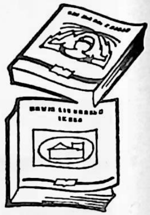
When You Hear a "BEEP" Tone

If you hear a short "beep" tone on your telephone about every 15 seconds, it means that the person with whom you are talking is recording your conversation. This signal is provided by the Telephone Company for your protection. Use of a recorder without recorder-connector equipment containing a tone-warning device is contrary to the Company's tariffs and not permitted. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects, you will no longer hear the "beep" tone.

Attachments to Telephones

The Telephone Company furnishes all equipment necessary to provide telephone service. In the interests of safety and good service, no equipment, apparatus or device not furnished by the Telephone Company may be attached to, or used or connected with, its facilities, except as provided in the Company's tariffs.

Employee Identification Cards ⟶



For your protection, any employee who visits customer premises carries an official identification card showing his or her name, photograph and signature. If you have the slightest doubt about anyone who says he's "from the Telephone Company" please ask to see his card.

Telegrams

You may telephone telegrams, cablegrams, or radiograms to the Western Union Telegraph company—see the listings of that company in this directory—and have the charges appear on your telephone bill. You may also telephone your Western Union telegrams from coin telephones, paying as you would for a telephone call.

Out-of-Town Directories

Directories of other cities may be obtained at a nominal charge. Call our Business Office. . . . See Page IX.

Telephone directories of the principal cities and towns in the United States may be consulted at our Business Office. . . . See Page IX.

Automatic Answering Set

Certain telephones are equipped with an automatic device, known as an Automatic Answering Set, which answers the telephone mechanically when no person is available. It then makes a recorded announcement.

If your call is answered by an Automatic Answering Set, listen carefully for the announcement which will be self-explanatory.

Some of these sets will also record a message from the caller.

Tariffs

Tariffs which show rates, rules and regulations for telephone service and facilities, approved by the Regulatory Commission, are available in our Business Office for public inspection.
